

Communicator IP Softphone

Qudo Communicator is an IP Softphone that turns any PC into a telephone. Supported on Windows 2000, XP and Vista, Communicator makes an ideal second extension for Home Workers and road warriors.

As Shared Call Appearance

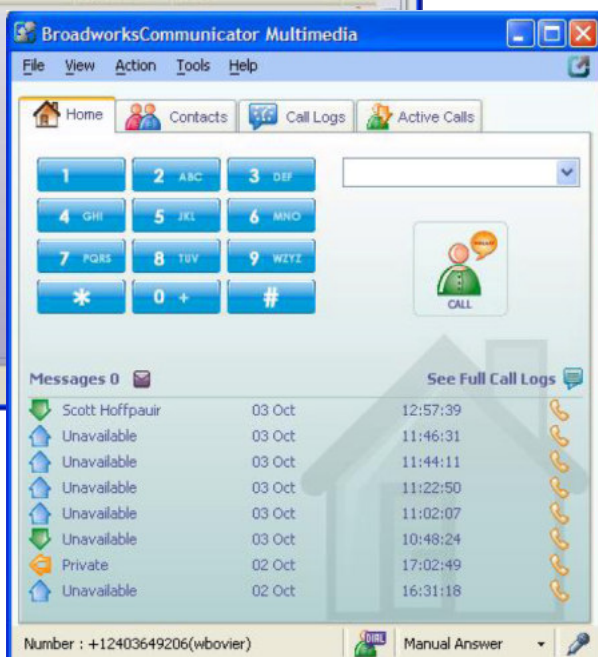

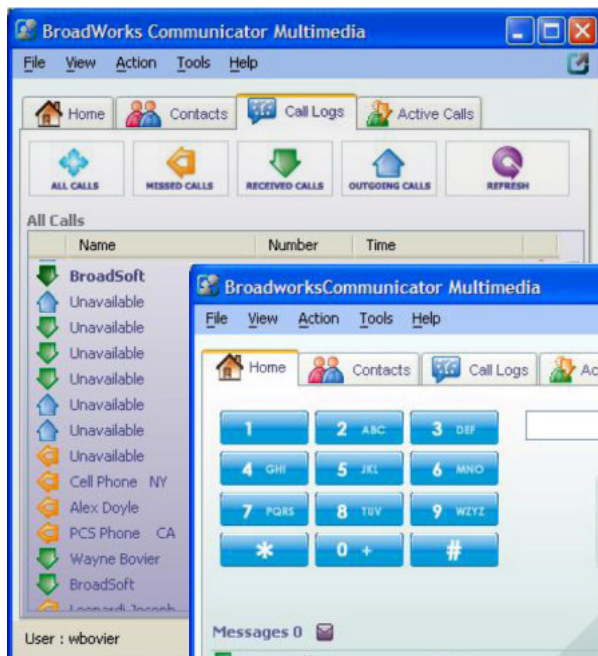

Used in conjunction with Shared Call Appearance, Communicator makes an ideal second extension to partner the desk phone in the office. Both phones share the same extension and will both ring when a call is received.

Communicator Video Phone

The Communicator Video option adds the dimension of sight to interparty calls for a warmer user experience.

Rich PBX feature sets
